TARGETING SUCCESS FOR YOUTH

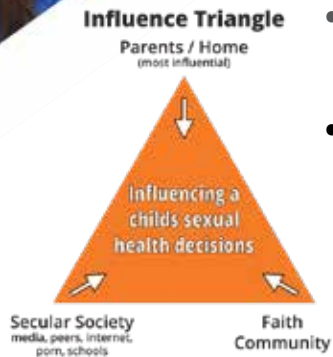

WHO IS TEACHING OUR YOUTH ABOUT SEX?

The most effective agents of influence over a child's sexual decisions are **PARENTS AND CHURCH.**

BUT

- Parents and church feel ill-equipped
- There is concern over Comprehensive Sex Education programs in schools

Youth who apply refusal skills, and delay sex are more likely to succeed...

- Better physical, mental & emotional health
- Better academic achievement
- Improved earning potential
- Better family relationships
- Achieve their goals!

2022, ASCEND, Sexual Risk Avoidance Education, What You Need To Know

BUT...

Comprehensive Sex Education Curriculum Emphasizes Consent, NOT Refusal Skills

Consequences

- Teen Pregnancy – 28.2 girls/1000
- Sexually Transmitted Infections (STI) -Epidemic levels (300%increase since Comprehensive Sex Education) - 15–24 year olds account for 51% of all STIs

Negative Impact of Teen Sex

- Reduced academic achievement & earning potential
- Poor physical, mental, & emotional health
- Increased depression & suicide
- Increased exposure to crime, and sexual exploitation

PEACE Educational Services Sexual Risk Avoidance Programs

Tested & proven programs to inform and empower youth (and those who influence them) to make healthy & biblically aligned sexual decisions.
